# NAVIGATION

The navigation panel is located on the left hand side of the screen. You can access all of the major functions by selecting one of the following: Dashboard, Reports, Settings, Organization and Logout.

# DASHBOARD

The dashboard screen represents the relevant data regarding all of the available Cythero products. Here you can see information regarding the usage of the products, usage timeline and other useful information. You can get detailed information by clicking on any user.

# REPORTS

The reports are tailored for each application and can show information such as user progress report and session overviews.

# USER REPORT

The user report is a breakdown of the user's progress for the selected period. In this report you can see the number of completed sessions and the tracked values for each part and technique.

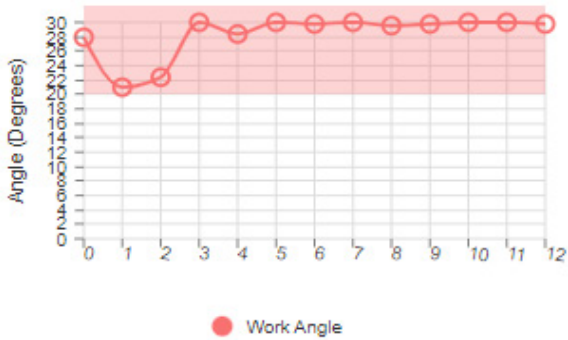

# PART REPORT

The part report is a breakdown of the work angle, travel angle, speed and distance for each part and technique in the selected time period

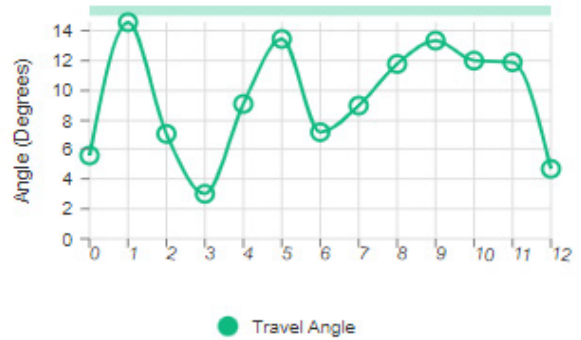

## Butt Joint (MIG)

Welded: 13

### Average Work Angle

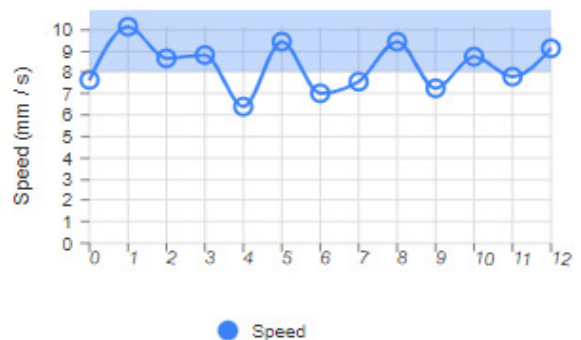

### Average Travel Angle

### Average Distance

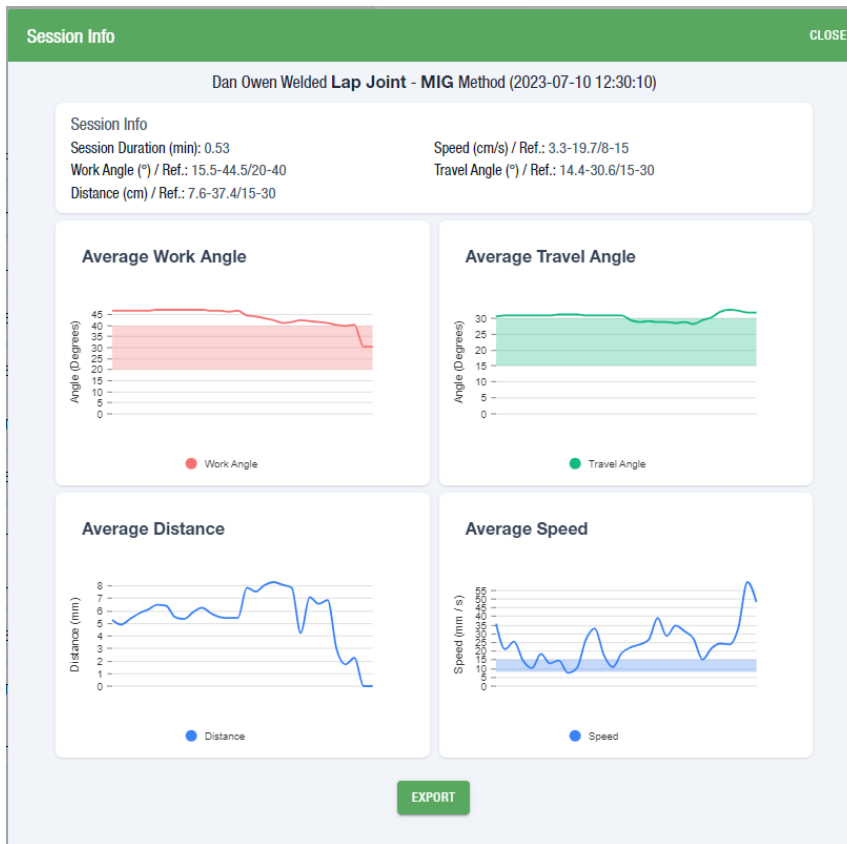

### Average Speed

# TRAINING SESSIONS REPORT

The usage report shows the sessions the user has played for the selected time period. You can see a detailed overview by clicking on each session.

User	#1	Part	Method	Date	Avg. Work Angle	Avg. Travel Angle	Avg. Speed	Avg. Distance
--Total	--	--	--	--	17.24	10.41	8.5	0
Dan Owen		Lap Joint	MIG	2023-07-10 12:30:10	14.53	8.07	8.22	14.92
Dan Owen		Butt Joint	MIG	2023-08-07 10:45:50	27.99	5.64	7.61	0
Dan Owen		Butt Joint	MIG	2023-08-07 10:49:14	20.99	14.58	10.14	12.42
